Summer Reading List Grade 4

Dear New Fourth Grader,

To be ready for fourth grade, please read at least three books this summer. We have listed many books from which to choose. To find a "good fit" for you, look at your reading performance level (grade) that is on your report card. It is a number from one to four.

Use this level to guide your choices of books. When you are finished reading a book, report on it using one of the graphic organizers that are at the end of this packet. Do this each time you read a book. You should have three organizers filled in when you have finished reading all the books for the summer's assignment.

If there is a harder book on this list that you would like to experience, please ask an adult in your life to read the book to you. It's always fun to hear a story, and to talk about it with another person. Then, complete the graphic organizer when it is finished. Be sure to write on the top of the paper that the book was read to you.

These reports are due by the third week of September. That way, if you have any difficulties completing the work, your classroom teacher can help.

Have an enjoyable summer. We look forward to seeing you in September. ☺
