

One Voice – Letter Writing Campaign

Governor's Executive Budget Proposal

The Governor's executive budget proposal has a huge impact on Long Island.

- Long Island educates 17% of the state's students and receives only 12.5% of the state aid.
- Long Island's proposed aid cut is 7.2%. The statewide cut is 6.7%.
- Foundation Aid provides \$3,300 per pupil to Long Island schools; this is 38% lower than the statewide average of \$4,600.

What can you do?

Let your local legislators hear your concerns, and let's do it with one voice. Local organizations are writing letters which will be delivered to the legislators in Albany in mid March. Attached is a sample letter to our local legislators, as well as their names and addresses. If you wish to be a part of the campaign, drop your letters off at the Administration Building, and they will be hand delivered to the legislators' offices.
