

## **KEEP ISLIP CLEAN SNEAKER RECYCLING PROGRAM**

**The Islip High School KIC Club is pleased to announce it will once again participate in NIKE'S "Reuse-A-Shoe" program by collecting non-metal containing sneakers for recycling. The program runs until January 31, 2012.**

**Through the "Reuse-A-Shoe" program sneakers of any brand are shipped to Memphis where the rubber, foam and upper fabrics are treated and used to build athletic tracks, flooring and play ground surfaces and padding for hardwood floors.**

**The surfaces produced from the recycled materials are donated to disadvantaged communities to promote physical activity.**

**Please bring any used sneakers to the bin at the Islip High School.**
